

Education

Duke University, B.S. in Mathematics - 2026-2029

- Relevant Coursework: Real Analysis, Probability Theory
- Duke Baseball Analytics Team: Built statistical models and clustering algorithms to identify player performance patterns; designed data processing and cleaning pipelines to prepare raw game data for analysis.

University of Michigan Ann-Arbor, B.S.E. in Electrical Engineering - 2025-2026 - GPA: 3.93

- Relevant Coursework: Multivariable Calculus, Linear Algebra
- Awards: Dean's List First and Second Semester, Engineering Honor Program Invitee
- Michigan Math Meet: Head of Corporate Outreach: Directed sponsor relations and secured vital funding while co-managing event logistics, proctoring, and mathematical instruction.
- Redefined: High School Tutor: Worked with different high school students in the Ann Arbor area to provide subject area tutoring and general mentoring.

Greenwich Country Day School, High School Diploma - 2021-2025

- Head of School Award, Academic Honor Society, National Merit Scholar, Student Life Award

Work Experience

Balyasny Asset Management, Summer Research Project - 2026

- Analyzed 10+ academic papers related to convertible arbitrage strategies and risks
- Based on paper findings, built and trained multiple small neural networks on 100+ unique factors
- Backtested neural network architectures to investigate how predicted monthly alpha for convertible bond issuers compares to the broad market

Clear Street, Summer Intern - 2025

- Created models that detect wire fraud on client accounts to fulfill compliance requirements
- Assisted in the creation of version 2.0 of Clear Street daily PNL system
- Engaged in workshops and one on one meetings to develop understanding of all business areas

Quantum Computing Research - 2024

- Worked with Emory professor Jed Brody to write a paper on Grover's quantum algorithm and a proof of concept for practical uses
- Published in *The Mathematical Intelligencer* and can be viewed at: rdcu.be/d5ind

Chief Executive Group, Summer Database Intern - 2023

- Trained data team on ZoomInfo API and Python implementations
- Restructured databases for increased ease in deploying data to new areas of the business
- Acted as a sounding board contributing to strategy and implementation of company data

Youth Lacrosse K - 5th Coach - 2023-Present

- Managed coaching staff in order to run multiple drills concurrently for large groups of players
- Coached children with various levels of experience, including new players
- Organized and refereed games and tournaments

Skills

- Python, C++, C#
- Communication and project management
- Unix, Git/GitHub
- SQL and database management
